

Week 1: God and His Creation

JSS1 Christian Religious Studies (CRS) — First Term Lesson Note (Deep-Dive Edition)

Introduction

Christian Religious Studies begins with the most fundamental question of faith: **who is God?** Before we can understand creation, marriage, or obedience, we must first understand the One who is the source of all things. This week lays that foundation.

Who is God?

The Bible opens with a direct statement about God as Creator: **“In the beginning God created the heavens and the earth”** (Genesis 1:1). The prophet Jeremiah also describes God's power in creation: **“He made the earth by his power; he founded the world by his wisdom and stretched out the heavens by his understanding”** (Jeremiah 10:12).

From these passages, we learn that God is the **Creator** of everything that exists — the heavens, the earth, and all living things — and that He made the universe with power, wisdom, and understanding.

Omniscient (All-knowing)	God knows everything, past, present, and future	Psalms 147:5

Real-Life Application

When we look at the sky at night, the vastness of the ocean, or the complexity of the human body, we are reminded of God's power and wisdom as Creator. Recognizing God as Creator should lead us to gratitude and respect for the natural world He has made, and for our own lives.
