

TOPIC 2: GRAMMAR – PARTS OF SPEECH, NOUNS AND PRONOUNS

1. Parts of Speech

Words are grouped into classes called parts of speech according to their function in a sentence. The main ones are: noun, pronoun, verb, adjective, adverb, preposition, conjunction and interjection.

2. Nouns

A noun is a word that names a person, place, thing or idea. Types include:

- **Proper nouns** – specific names (Lagos, Nigeria, Amina) – usually capitalised.
- **Common nouns** – general names (boy, city, school).
- **Concrete nouns** – things you can see/touch (book, tree).
- **Abstract nouns** – ideas or qualities (love, honesty, fear).
- **Collective nouns** – groups (team, flock, class).
- **Countable / Uncountable** – books vs water, rice.

3. Pronouns

A pronoun takes the place of a noun to avoid repetition. Types include: personal (I, you, he, she, it, we, they), possessive (mine, yours, his), demonstrative (this, that, these, those), relative (who, which, that), interrogative (who, what, which), reflexive (myself, yourself).

4. Summary

Nouns name people, places, things and ideas; pronouns replace nouns. Knowing types helps you write and speak correctly.
