TOPIC 4: GRAMMAR – ADVERBS, PREPOSITIONS, CONJUNCTIONS AND ADVERBIALS

1. Adverbs

An adverb modifies a verb, adjective or another adverb. It often answers how, when, where or to what extent. Types: manner (quickly), time (yesterday), place (here), frequency (always), degree (very).

2. Prepositions

A preposition shows the relationship between a noun/pronoun and another word (in, on, at, under, between, with, for, from, to). Prepositional phrases act as adjectives or adverbs (the book *on the table*).

3. Conjunctions

Conjunctions join words, phrases or clauses.

- **Coordinating**: and, but, or, nor, for, yet, so (join equals).
- **Subordinating**: because, when, if, although, while (join dependent to independent clause).

4. Adverbials

Adverbials are words or groups of words that function like adverbs (telling when, where, how, why). They add detail to the verb or sentence (e.g. *in the morning, with care*).

5. Summary

Adverbs, prepositions, conjunctions and adverbials link and describe actions and relationships. Mastering them improves sentence structure and meaning.
