

BEAUTY AND COSMETOLOGY

TOPIC 1: Introduction to Beauty and Cosmetology

Beauty and cosmetology is the art and science of improving appearance through hair care, skin care, nail care and makeup. It is important for personal grooming, self-confidence and as a source of employment and business.

TOPIC 2: Tools and Equipment

Common tools: comb, brush, mirror, apron, towel, hair dryer, scissors, clips. Identify each and use correctly. Keep tools clean and sanitised to prevent infection.

TOPIC 3: Personal Hygiene and Grooming

Cleanliness of body, hair, nails and clothes is essential for a beauty practitioner and for clients. Daily routines: bathing, brushing teeth, washing hands, neat hair and clean uniform/apron.

TOPIC 4: Safety Precautions in the Salon

Handle electrical appliances carefully; do not use with wet hands; sterilise tools; dispose of waste properly; avoid sharing unsterilised tools; know basic first aid for cuts and burns.

TOPIC 5: Basic Hair Care Practices

Brushing distributes natural oils; washing with suitable shampoo removes dirt; simple styling keeps hair neat. Treat natural hair gently and avoid harsh chemicals without proper knowledge.

TOPIC 6: Skin Care and Cleansing

Skin types: normal, dry, oily, combination, sensitive. Basic cleansing steps: cleanse, tone, moisturise. Clean skin regularly to prevent pimples and maintain a healthy appearance.

TOPIC 7: Nail Care

Manicure (hands) and pedicure (feet) include cleaning, shaping, cuticle care and polishing. Keep nails clean and neat; use sterile tools for each client.

TOPIC 8: Introduction to Makeup and Simple Techniques

Makeup enhances appearance. Tools include brushes, sponges, powder, lip gloss. At JSS1 level, theory focuses on basic application of facial powder, lip gloss and simple eyebrow shaping – always with hygiene and client comfort in mind.

Summary

Beauty and cosmetology covers hair, skin and nail care and basic makeup. Hygiene, safety and correct use of tools are fundamental for good practice and client safety.
