

TOPIC 5: THE VALUE OF VIRGINITY AND FAITHFULNESS AFTER MARRIAGE

1. Meaning of Virginity

In the Christian moral context, virginity refers to sexual purity before marriage – abstaining from sexual relations until marriage. It is valued as a way of honouring God with one's body and preparing for a faithful marriage.

2. Value of Virginity

- Shows self-control and respect for one's body as God's temple (1 Corinthians 6:19–20).
- Builds character, discipline and trust.
- Reduces risks of sexually transmitted infections, unwanted pregnancy and emotional harm.
- Prepares a person to enter marriage with integrity and a clear conscience.
- Reflects obedience to biblical teaching on sexual purity.

3. Faithfulness after Marriage

Faithfulness means remaining loyal to one's spouse in thought, word and action – sexual exclusivity, honesty, support and commitment “for better or worse.” Adultery and unfaithfulness break the marriage covenant and harm families.

4. Christian Teaching

Marriage is a covenant before God (Genesis 2:24; Matthew 19:4–6). Husbands and wives are called to love and respect each other (Ephesians 5:22–33). Purity before marriage and faithfulness within marriage honour God and protect the family.

5. Summary

Virginity before marriage and faithfulness after marriage are Christian values that protect individuals, strengthen marriages and honour God. They require commitment, self-control and reliance on God's grace.
