

JSS 2 ENGLISH STUDIES – FIRST TERM

TOPIC 5: VOCABULARY DEVELOPMENT

1. Importance of Vocabulary

A rich vocabulary improves reading, writing, speaking and listening. Learn words in themes and in context rather than in isolation.

2. Thematic Vocabulary

- Health: diagnosis, prescription, hygiene, epidemic, vaccine
- Administration / Office: memo, agenda, minutes, correspondence, hierarchy
- Contemporary issues: corruption, transparency, accountability, civic duty
- Education and school life: curriculum, assessment, discipline, co-curricular

3. Word Formation and Relationships

Prefixes and suffixes change meaning (un-, re-, -tion, -able). Synonyms and antonyms help precision. Collocations (words that go together) sound natural.

4. Using New Words

Record new words with meaning, example sentence and part of speech. Use them in composition and conversation.

5. Summary

Build vocabulary by theme, context and active use. This supports comprehension and quality writing.
