JSS3 French — First Term Lesson Note (Deep-Dive Edition)

Introduction

This week teaches students to describe an object — its shape, colour, material, and use — building practical descriptive vocabulary.

Vocabulaire: Les formes (Shapes)

rond(e) (round), carré(e) (square), rectangulaire (rectangular), triangulaire (triangular), ovale (oval)

Vocabulaire: Les matières (Materials)

Français	English
le bois	wood
le plastique	plastic
le métal	metal
le verre	glass
le tissu	fabric/cloth
le papier	paper
le cuir	leather

Grammaire: Parler de l'usage d'un objet

To say what an object is used for, French uses the expression “**ça sert à ...**” (it is used for/to ...), followed by a verb in the infinitive.

Un stylo, ça sert à écrire. (A pen is used for writing.)

Une chaise, ça sert à s'asseoir. (A chair is used for sitting.)

Exemple de description

C'est un objet rectangulaire, fait en plastique. Il est petit et léger. C'est de couleur bleue. Ça sert à écrire des messages et à appeler des amis. (C'est un téléphone portable.)

(It is a rectangular object, made of plastic. It is small and light. It is blue in colour. It is used for writing messages and calling friends. It's a mobile phone.)

Real-Life Application

This vocabulary is useful for descriptive “guess the object” games in class, and for BECE-style composition tasks asking students to describe a familiar object and explain its use.
