

TOPIC 6: LETTERING

1. Meaning of Lettering

Lettering is the art of drawing letters by hand (as distinct from ordinary handwriting or printed type). It is used in posters, signs, certificates, book covers and design work.

2. Types of Lettering

- Block letters (sans-serif, clear and bold)
- Roman / serif letters
- Script / decorative styles
- Gothic and other display styles

Choice depends on purpose, readability and mood.

3. Lettering Construction and Stages

Plan guidelines (baseline, x-height, capital height). Construct letters with consistent proportions and spacing. Stages often include: sketch in light pencil → refine shapes → ink or paint → clean up guidelines. Practise spacing (not equal gaps but optically even).

4. Summary

Lettering is drawn letter design. Master basic types and construction stages for clear, attractive text in art and design projects.
