

### TOPIC 5: COMPOSITION – ESSAYS AND DEBATES

#### 1. Expository Essay – How to Care for a Motor Vehicle

Explain step by step: regular checks (oil, water, tyres), cleaning, servicing, safe driving habits. Use clear sequence words (first, next, then, finally). Aim to inform, not merely to describe.

#### 2. Descriptive Essay – My Favourite Subject

Describe the subject, why you like it, the teacher or activities, and what you have gained. Use vivid adjectives and specific examples. Organise in paragraphs: introduction, reasons, conclusion.

#### 3. Guided Writing

Follow the outline or points given by the teacher. Expand each point into full sentences and paragraphs while keeping the required format (letter, essay, report).

#### 4. Debate

Topics in the scheme include: “Corruption is worse than armed robbery” and “Child trafficking is worse than stealing.” Prepare: define key terms; give points for your side with examples; anticipate the other side; conclude strongly. Speak clearly and respectfully.

#### 5. Summary

Expository and descriptive essays need clear structure and relevant detail. Debates need logical points, evidence and confident delivery.
