

TOPIC 6: LITERATURE – FICTION, NON-FICTION AND POETRY

1. Fiction and Non-Fiction

Fiction is invented (novels, short stories, some drama). **Non-fiction** is based on fact (biography, history, news, textbooks). Examples of non-fiction: autobiography, newspaper articles, scientific reports. Knowing the difference helps you choose reading strategies and evaluate truth claims.

2. Poetry Analysis

Look at: subject and theme; imagery (simile, metaphor, personification); sound (rhyme, rhythm, alliteration); tone and mood; message or lesson. Quote briefly to support your points. Rhyme scheme is the pattern of end rhymes (e.g. ABAB, AABB).

3. Summary

Distinguish fiction from non-fiction; analyse poems for meaning, devices and rhyme scheme.
