

TOPIC 2: RECREATION, LEISURE AND DANCE ACTIVITIES (PART 1)

1. Pre-Colonial / Folk Traditional Dances

Traditional dances are rooted in Nigerian cultures and were performed before colonial times for festivals, rites, storytelling and celebration. Examples include Bata, Atilogwu, Koroso, Swange and many local variants. They use indigenous music, costumes and movements and strengthen cultural identity.

2. Social Dances

Social dances are performed mainly for enjoyment and social interaction (e.g. at parties and gatherings). They may mix traditional steps with modern music and are more flexible in form than ceremonial dances.

3. Values

Fitness, coordination, cultural pride, teamwork, recreation and stress relief. Participation should respect culture and safety (appropriate space, footwear, warm-up).

4. Summary

Folk traditional dances preserve culture; social dances emphasise enjoyment and togetherness. Both support physical and social well-being.
