

TOPIC 3: RECREATION, LEISURE AND DANCE ACTIVITIES (PART 2)

1. Foreign and Modern Dances

Foreign and modern dances include styles that originated outside Nigeria or developed in recent times (e.g. ballet, hip-hop, salsa, contemporary). They are often learned in schools, clubs and media and can be combined with local styles.

2. Computer Games as Leisure

Computer (and console/mobile) games are a common leisure activity. They can be single-player or multiplayer, educational or purely recreational.

3. Values of Computer Games

- Can improve reaction time, problem-solving and hand–eye coordination
- Social connection in multiplayer settings
- Relaxation and fun when used in moderation

Balance is important: excessive play can reduce physical activity, sleep and study time. Choose age-appropriate games and set limits.

4. Summary

Modern dances and computer games are part of contemporary recreation. Enjoy them while maintaining physical activity and healthy time management.
