

JSS 3 PHYSICAL AND HEALTH EDUCATION – FIRST TERM

TOPIC 4: TRACK AND FIELD – POLE VAULT AND JAVELIN

1. Pole Vault

Pole vault is a field event in which the athlete uses a flexible pole to clear a high bar. Phases include approach run, plant, take-off, swing-up, clearance and landing on a soft mat. It requires speed, strength, timing and courage. Safety: proper mats, supervised practice, correct pole rating for the athlete.

2. Javelin

Javelin is a throwing event. The athlete runs up and throws a spear-like implement as far as possible within sector rules. Phases: approach, withdrawal, delivery and recovery. Rules cover run-up, foul lines and landing sector. Safety: throw only in designated areas; never stand in the throwing sector; obey officials.

3. Common Points

Warm up thoroughly; use correct technique under coaching; respect equipment and competition rules; prioritise safety over distance or height in training.

4. Summary

Pole vault and javelin are technical field events. Skill, strength and strict safety practices are essential.
