

TOPIC 8: GROUP / COMBINED EVENTS (PART 2)

1. Scoring System

Each performance is converted to points using official scoring tables (better performance = more points). The athlete with the highest total points wins. This allows fair comparison across different events (e.g. a jump and a throw).

2. Facilities and Equipment

Standard track and field facilities: running track, jumping pits, throwing circles/runways, hurdles, implements (shot, discus, javelin, etc.) of correct weight for the age group, and timing/measuring equipment.

3. Rules, Officials and Safety

Each discipline follows its own technical rules (false start, foul throws, etc.). Officials include referees, judges, timekeepers and starters. Safety: correct warm-up, implement control, clear landing areas, and medical support at major meetings.

4. Summary

Combined events use points tables, full track-and-field facilities and strict rules. Safety and fair officiating are essential for multi-event competition.
